

Leo R. Cullinan, DDS, MS

Board Certified Orthodontic Specialist

“No-Cost” Initial Consultation

Dr. Cullinan and his experienced staff have specifically designed your initial visit to make you comfortable with our office. That is why a special block of time will be reserved just for you or your child. A guided tour of our modern facility will be given and you will meet our staff. Photographs, a panoramic x-ray and a thorough, comprehensive examination will be performed. When this is completed, the following topics will be addressed:

- Orthodontic problem(s) with appropriate treatment option
- Associated fees and financial arrangements

We are pleased to offer a conditional one-time “no-cost” initial consultation which includes an examination (\$50.00 value), diagnostic photographs (\$50.00 value), and a panoramic x-ray (\$150.00 value).

In consideration of reserving a full hour and a half for you, the only condition associated with our one-time “no-cost” consultation is that you keep your originally scheduled appointment. You will not be charged for changing or missing this appointment.

However, because a missed or changed appointment represents “lost time” in our schedule, if you are unable to keep this appointment, the cost of any subsequent initial consultation appointment will be \$250.00.

We hope you agree that this represents a tremendous value and a fair arrangement for everyone involved.

Everything we do in the office allows you or your child to be that much closer to a beautiful smile. That is why we take advantage of the time, starting at the initial visit, to move this process along. Sufficient time has been set aside to complete the necessary diagnostic records and place upper braces. This includes a lateral head x-ray, intraoral scanning with bite registration, and case analysis.

This initial visit will take approximately 90 minutes and we will be happy to discuss any questions or concerns you may have during that time.
